Catalogue No. 2002.0

Indigenous Profile

Based on place of enumeration

Excludes overseas visitors

Available for Local Government Areas, Indigenous Areas, ATSI Regions and aggregates of these

Note: For Statistical Local Areas, Indigenous Locations and aggregates of these, only tables I01-I03, I13 and I29 will be released

INQUIRIES: Data tailored to your specific needs, not provided in these standard tables, are available from the ABS Information Consultancy unit in your State or Territory

Definitions of Census classifications and concepts are available in the 2001 Census Dictionary (ABS Catalogue No. 2901.0)

INDIGENOUS PROFILE EXPLANATORY NOTES

INTRODUCTION

1. The Indigenous Profile provides 29 tables containing key census characteristics of Aboriginal & Torres Strait Islander persons, families and dwellings. Some tables provide comparisons with the non-Indigenous population. All data contained in this profile are based on place of enumeration and exclude overseas visitors.

2. Information was collected from the 2001 Census of Population and Housing.

3. Each table title in the Indigenous Profile consists of two parts. The first part lists the variables included in the table. The second part describes the table population.

4. For more information on classifications and Census concepts see the 2001 Census Dictionary (Cat. No. 2901.0).

GLOSSARY

Aboriginal and/or
Torres Strait Islander
Status

5. The question used in the 2001 Census was 'Is the person of Aboriginal or Torres Strait Islander origin?'. Respondents could report Aboriginal origin, Torres Strait Islander origin, both origins or neither.

Employed full-time/
part-time

6. 'Employed full-time' means that the person worked 35 hours or more in all jobs held in the week prior to Census night. 'Employed part-time' means that the person worked less than 35 hours in all jobs during the week prior to Census night.

7. For Census purposes, people who stated they were employed, but worked zero hours in the week prior to Census night have been coded to 'employed part-time'.

Family

8. A family is defined as two or more persons, one of whom is at least 15 years of age, who are related by blood, marriage (registered or de facto), adoption, step or fostering, and who are usually resident in the same household (see also Indigenous family).

Family income

9. Family income is the sum of the individual incomes of each resident family member aged 15 years and over who is present in the household on Census night. If any family member aged 15 years and over did not state their income, or was temporarily absent, family income is not calculated. These families fall into the 'partial income stated' category. Family income is not applicable to non-family households, such as group households or lone person households; or to people in non-private dwellings.

First and Second
Release Processing

10. The 2001 Indigenous Profile will be released in two phases. First Release tables (tables I01-I12) are those tables containing variables which are easily processed. Second Release tables (tables I13-I29) contain variables which require further processing or derivation.

Household

11. A household is defined as a group of two or more related or unrelated persons who usually reside in the same dwelling, who regard themselves as a household and who make common provision for food or other essentials for living; or a person living in a dwelling who makes provision for his/her own food and other essentials for living, without combining with any other person (see also Indigenous household).

12. For census purposes, the total number of households is equal to the total number of occupied private dwellings.

Household income

13. Household income is the sum of the individual incomes of each resident household member aged 15 years and over who is present in the household on Census night. If any household member did not state their income, or was temporarily absent, household income is not calculated. These households fall into the 'Partial income stated' category.

Indigenous family

14. An Indigenous family is a family where either the reference person and/or spouse/partner is of Aboriginal and/or Torres Strait Islander origin.

Indigenous household

15. An Indigenous household is a family household where any family in the household is defined as an Indigenous family or a lone person household where the lone person is of Aboriginal and/or Torres Strait Islander origin. Group households are not included.

Industry

16. The industry classification is an indication of the main job only.

Nfd

17. Nfd means 'not further defined'.

Occupation

18. The occupation classification is an indication of the main job only.

Overseas visitors

19. Overseas visitors are excluded from all tables in the Indigenous Profile.

Place of enumeration

20. The Census count, based on place of enumeration, is a count of every person who spent Census night in Australia where they were located. People are counted where they are on Census night, which may not be where they usually live. Census data are also available on place of usual residence.

Reference person

21. The family/household reference person identifies the person who is used as the basis for determining the familial and non-familial relationships within a household. It is usually the person who has identified himself/herself as person one on the Household Form.

INDIGENOUS PROFILE EXPLANATORY NOTES(cont'd)

.....

<p>Selected Averages</p>	<p>22. Median monthly housing loan repayment is applicable to occupied private dwellings being purchased and includes dwellings being purchased under a rent/buy scheme. It excludes 'Visitor only households' and 'Non-classifiable households'.</p> <p>23. Median weekly rent is applicable to occupied private dwellings being rented. It excludes 'Visitor only households' and 'Non-classifiable households'.</p> <p>24. Median weekly individual income is applicable to persons aged 15 years and over.</p> <p>25. Median weekly family income is applicable to families in occupied private dwellings. It excludes families where at least one family member aged 15 years and over did not state an income and families where at least one family member aged 15 years and over was temporarily absent.</p> <p>26. Median weekly household income is applicable to occupied private dwellings. It excludes households where at least one member aged 15 years and over did not state an income and households where at least one member aged 15 years and over was temporarily absent.</p> <p>27. Mean household size is applicable to number of persons usually resident in occupied private dwellings. It includes partners, children, and co-tenants (in group households) who were temporarily absent on Census night. A maximum of 3 temporary absentees can be counted in each household.</p>	<p>Partial non-response</p> <p>Processing error</p> <p>Random adjustment</p> <p>Respondent error</p> <p>Undercount</p> <p>Household Income (HIND) and Family Income (FINF)</p>	<p>31. In some cases an answer, where not provided to a question, was imputed or derived (often from other information on the form). In other cases a 'not stated' code was allocated.</p> <p>32. While such errors can occur in any processing system, quality management is used to continuously improve the quality of processed data, and to identify and correct data of unacceptable quality.</p> <p>33. Cells containing small values are randomly adjusted to avoid releasing information about particular individuals, families or households. The effect of random adjustment is statistically insignificant.</p> <p>34. Because processing procedures cannot detect or repair all errors made by persons in completing the form, some remain in final data.</p> <p>35. Although the Census aims to count each person once, there are some people who are missed and others who are counted more than once. A post enumeration survey is conducted in non-sparse areas soon after the Census to measure the undercount.</p> <p>36. For further information on data quality see Population Distribution, Indigenous Australians (Cat. No. 4705.0).</p> <p>37. Due to operational limitations, the family/household income imputation methodology may result in an undercount of the number of families/households in the \$1,500 - \$1,999 range and a balancing over count in the \$2,000 or more range. No other income ranges are affected. This may also affect the median income estimate if the median falls in either of these ranges.</p>
<p>Table population</p>	<p>28. Table population is a description of what the table is counting. For example, tables containing marital status have a table population of persons aged 15 years and over. The population appears under the table title.</p>		
<p>DATA QUALITY</p>	<p>29. For further information on the data quality of Indigenous census data, see Population Distribution, Aboriginal and Torres Strait Islander Australians (Cat. No. 4705.0). This publication presents counts for Aboriginal and Torres Strait Islander Australians from the 2001 Census for Indigenous geographic areas, accompanied by information on data quality to help interpret the data. Population estimates of the Indigenous population based on the 2001 Census are also included. For comprehensive information on the quality of Indigenous census data, see Population Issues, Aboriginal and Torres Strait Islander Australians (Cat. No. 4708.0).</p> <p>30. Each stage of the Census is subject to stringent quality assurance measures. However, in a census there are recognised sources of error which may be carried over in the data produced. These include undercounting, processing and respondent error. Some of these are overcome or 'repaired' during processing. The effect of those that remain is generally slight, although they may be more important for small groups in the population such as the Indigenous population. The primary forms of error to keep in mind are:</p>	<p>INDIGENOUS GEOGRAPHY</p>	<p>38. The calculation of median income is based on imputations made from the Survey of Income and Housing Costs, and as such is subject to sampling error. This is particularly evident if the median falls into the highest income range, where the quoted median is a proxy only and should be regarded with caution.</p> <p>39. Further information on data quality will be provided progressively in Census Update and in the 2001 Census fact sheets and working papers.</p> <p>40. An Australian Indigenous Geographical Classification was established for the 1996 census. This has been reviewed for the 2001 census, taking into account new Collection Districts, and known changes to the Indigenous population distribution. The hierarchy for the Classification is the same as that used in 1996, and consists of Indigenous Locations, Indigenous Areas and derived ATSIC Regions. Indigenous Locations have a minimum population of around 50 Indigenous people, and comprise one or more Collection District. Indigenous Areas have a minimum population of around 280 Indigenous people and co aggregates of Collection Districts. Derived ATSIC Regions, comprised of aggregates of Collection Districts, are based on legally prescribed areas for the purposes of administration by the Aboriginal and Torres Strait Islander Commission (ATSIC). For more information on the Australian Indigenous Geographical Classification see Statistics Geography Volume 2, Census Geographic Areas Australia (Cat. No. 2905.0) or the Australian Indigenous Geographical Classifications Maps (Cat. No. 4706.0.30.001) CD-ROM.</p>
